Elena **Antoniadou**

Software Test Engineer · AI Engineer

Thessaloniki, Greece

(+30) 6971870226 | eleni.antoniadou.kron@gmail.com | Greek nationality

Experience

KENOTOM P.C. – I.K.E. — *Thessaloniki, Greece*

Engineering Roles

- **AI Engineer** — *Jan. 2026 – Present*
  Developed a RAG pipeline for AI-assisted unit test generation, integrating locally hosted LLMs through Ollama and cloud-based platforms such as Claude and OpenAI. Implemented vector-based knowledge retrieval with Qdrant and designed prompts, parser inputs, and toolchain workflows to support automated test generation.
- **Unit Tester** — *Jun. 2025 – Present*
  Performed unit-level software testing and verification of C-based software modules using TESSY, including test case design, execution, and evaluation. Managed test artifacts in IMS/MKS and developed scripts to automate test execution and report generation.
- **Requirements Engineer** — *Jul. 2023 – Jun. 2025*
  Analyzed and documented requirements for the Electrical Safety functional area using Polarion, maintaining requirements traceability and supporting compliance with industry standards.
- **Engineering Intern** — *Apr. 2023 – Jun. 2023*
  Developed an embedded temperature-monitoring system using the ATmega32A microcontroller and an analog temperature sensor.

Education

Hellenic Open University — *Thessaloniki, Greece*

M.Sc. in Data Science and Machine Learning (DAMA) — *Oct. 2024 – Jul. 2026*

- Completed coursework in statistical modeling, machine learning, deep learning, model optimization, and scalable computing.
- Applied Python, R, TensorFlow, and Azure; used RStudio and SageMath for coursework.

Aristotle University of Thessaloniki — *Thessaloniki, Greece*

Physics — *Jan. 2019 – Jun. 2023*

- Coursework covered classical mechanics, electromagnetism, quantum physics, thermodynamics, and statistics.

Skills

Testing	Software Testing, TESSY
ALM Tools	Polarion, IMS/MKS, JIRA
AI & Data	RAG, Prompt Engineering, API Integration, AI-Assisted Development
Engineering	C, Docker, Altium Designer, Systems Engineering, Databases
Foundations	Linear Algebra, Mathematics, Problem Solving
Languages	Greek (native), English
Work Authorization	Greece

Certifications & Training

ISTQB	Foundation Level, International Software Testing Qualifications Board (Feb. – May 2024)
Azure	AI Fundamentals, Microsoft (Nov. – Dec. 2024)
Systems Engineering	5-day course, SE-Training GmbH (May 2025)
English	Proficiency (ECPE), Michigan Language Assessment (May 2016)
